

# Acute post-streptococcal glomerulonephritis

## Public health management guidelines

- Read [Northern Territory Guidelines for Acute Post-Streptococcal Glomerulonephritis](http://digitallibrary.health.nt.gov.au/prodjspui/handle/10137/444) [<http://digitallibrary.health.nt.gov.au/prodjspui/handle/10137/444>]

## Enhanced surveillance for public health units

- [Case report form](https://www.health.qld.gov.au/cdcg/documents/cr-strep-glo.pdf) [<https://www.health.qld.gov.au/cdcg/documents/cr-strep-glo.pdf>] (PDF, 286kB) - APSGN is not a notifiable condition. This form may be used by public health units to collect and manage more detailed information for enhanced case surveillance; however, it is not to be sent to NOCS/Communicable Diseases Branch.
- List of [Public Health Unit](https://www.health.qld.gov.au/system-governance/contact-us/contact/public-health-units/default.asp) [<https://www.health.qld.gov.au/system-governance/contact-us/contact/public-health-units/default.asp>] contacts.
